

HOW DOES THE RADICAL LEFT KEEP WINNING, EVEN WHEN IT'S LOSING?

In *The Political Vise*, political strategist and policy leader John Tillman unmasks the hidden machinery driving America's relentless leftward drift.

This book isn't just a diagnosis—it's a battle plan. With sharp analysis and behind-the-scenes stories from the front lines of politics, Tillman shows how conservatives can use the vise the way it was intended and put the American people back in control. From Capitol Hill to school boards, *The Political Vise* arms readers with the tools to fight back against cultural coercion, institutional decay, and the slow suffocation of the American spirit.

If you've ever wondered why conservatives veer left in office or why opposing the woke agenda seems so futile, this is the book you've been waiting for. Smart, bold, and grounded in constitutional ideals, this book is both an in-the-trenches look at how politics actually works and a call to action to take back our political system.

PRAISE FOR *THE POLITICAL VISE*

"As governor and now working with students, I've seen how the Radical Left has co-opted power from the American people. In *The Political Vise*, John Tillman exposes their strategy and then presents a plan to restore power where our founders intended—with We the People. Conservatives young and old should read this book." —**SCOTT WALKER**, former governor, Wisconsin

"In *The Political Vise*, John Tillman reveals why so many politicians regularly vote for policies that are counter to the views of their constituents. Politicians respond to pressure. Too often the greatest pressure is not coming from the voters but rather the insiders, dealmakers and special interests. Tillman explains how and why this happens and provides a road map for the American people to fix it."
—**SCOTT RASMUSSEN**, founder, Napolitan Institute; president, RMG Research
